

## Project Proposal Instruction for the Injaz Fellowship for Disease Elimination

### Submission Instructions:

- Ensure that your proposal **does not exceed three pages in length**, excluding the references.
- Submit your proposal as a single PDF document via the designated submission portal or email address.
- Use a legible font (e.g., Times New Roman, Arial) with a font size of 12 points and standard margins.
- Use the following format as provided.
- Follow the specific submission instructions provided by the Injaz Fellowship, including deadlines, format, and any additional requirements.
- Ensure your proposal is clear, well-organized, and free of jargon to make it accessible to reviewers with diverse backgrounds.
- Proofread your proposal for grammar, spelling, and clarity.
- Remember, a well-crafted proposal not only demonstrates your commitment to disease elimination but also your ability to plan and execute a project that can make a significant impact. Good luck!

### Overview

Your project proposal is a critical document that outlines the initiative or project you plan to implement, aiming to contribute to disease elimination. It should articulate a clear approach to tackle challenges related to disease elimination, including Neglected Tropical Diseases, Malaria, and Polio. You may consider one of the following project types (but not limited to):

- Research Proposal
- Policy Analysis
- Policy Advocacy Initiative for Disease Elimination

### Project Proposal Structure

#### 1. Executive Summary

A brief overview of the project, including the problem, proposed solution, and expected impact. Keep it concise, ideally one paragraph.

#### 2. Introduction

**Background:** Provide context about the disease(s) your project targets. Highlight the significance of the problem and the need for new initiatives.

**Problem Statement:** Clearly define the specific problem your project will address.

#### 3. Objectives

List the primary and secondary objectives of your project. Objectives should be SMART: Specific, Measurable, Achievable, Relevant, and Time-bound.

#### 4. Methodology

Describe the methods and approaches you will use to achieve your project objectives. This section varies significantly depending on the project type:

- **Research Proposal:** Outline your research design, data collection, and analysis methods.
- **Policy Analysis:** Explain how you will review current policies, identify gaps, and propose modifications.
- **Policy Advocacy Initiative:** Detail your campaign strategy, including key messages, target audiences, and communication channels.

## 5. Expected Impact

**Outcomes and impact:** Describe the direct results you anticipate from your project and how it will contribute to the elimination of the targeted disease(s) in the long term.

## 6. Project Timeline

Provide a detailed timeline for your project, including key milestones and deadlines. Ensure the timeline is realistic and accommodates potential challenges.

## 7. Budget

Present a realistic budget that outlines all anticipated costs associated with your project.

## 8. References

Cite all sources of information, data, and literature reviewed during the preparation of your proposal.
